* Nicolas Carter was raised in Paraguay where he learned to play the Paraguayan harp, the national folk instrument. He has been composing, recording and performing harp music for more than 20 years and has recorded nearly a dozen albums in the United States, Europe and South America, both as a solo artist and with Latin American and world music ensembles.

Nicolas finds inspiration for his original compositions from observations of nature and in precious moments of everyday life. His performances integrate harp music with these observations and reflections on culture, often with a hint of humor, to create a warm and inviting experience for audiences. He is an often-featured concert performer and master teacher at national and international harp festivals.

Having earned a Master of Fine Arts degree in theatre direction from the University of Minnesota, Nicolas is also the recipient of the Fulbright Research Award in France, and Fulbright Scholar Award in Uruguay.
