

## Mitigation of Earthquakes (short version)

In the name I AM THAT I AM, Mother Mary, Jesus, Saint Germain, the angelic hosts of light, Elohim and precious elementals:

We pray for the stabilization of the western coast of North, Central and South America, including the San Andreas, Puente Hills, Hayward-Rogers Creek, Mendocino, Cascadia, New Madrid and Yellowstone Park calderas, faults, subduction zones and other geologically unstable regions on or off shore.

Prevent or mitigate all volcanic activity, earthquakes, floods and mudslides in and around California, Oregon, Washington, Alaska, Hawaii, Mexico, Chile, Ecuador, Yellowstone Park, the Mississippi River Valley and elsewhere around the globe.

Let light flow into the Earth to seal the subterranean cracks and fissures and to create a gelatinous effect around these faults and all related formations that allows for the release of pent-up pressures in small increments for the prevention of serious earthquakes. Beloved Virgo and Pelleur, Neptune and Luara, Aries and Thor, and Oromasis and Diana, direct the gnomes, undines, sylphs and salamanders to assuage any karmic energies due to return to mankind by mercy's light. Buoy them up through an action of the violet and blue flames, woven into a cosmic spiral now! Beloved Elohim and cosmic devas, thrust this spiral 100 miles deep into the Earth now!

Alpha and Omega and Helios and Vesta, radiate forth cosmic rays from the sun of even pressure in the center of the Earth out to the crust and beyond to nourish and sustain all life. Accelerate the Sun Presence of love within all life as Earth becomes Freedom's Star, a crystal star-fire diadem within this solar system. Purify the Earth body by the action of the crystal ray!

Beloved elementals, we love you, we call to you, we sing to you and we dance with you! We see a golden-crystal age of love-wisdom, enlightenment and freedom dawning upon Earth whereby the liquid-crystal light that we invoke daily may be a permanent focus for all Earth's evolutions to experience. As we breathe fresh air and drink pure water, we whisper a prayer for you to work miracles within and upon the Earth. We are grateful for you all! Amen.
