

Release of the Fire Breath of God Through the Seven Rainbow Rays

In preparation, give the breathing exercise shown below while visualizing a six-pointed star centered over the threefold flame in the secret chamber of the heart, with the name of God, I AM THAT I AM, written across it in living flame.

Repeat the breathing exercise three times for the purification and balancing of the four lower bodies by the sacred fire breath of God. This is done in four steps:

- 1. Inbreath begins in the etheric body to the count of eight.*
- 2. First hold energizes through the mental body to the count of eight.*
- 3. Outbreath releases through the emotional body to the count of eight.*
- 4. Second hold anchors in the physical form the balanced action of the Father, Son, Mother and Holy Spirit to the count of eight.*

Repeating these four steps three times prepares you for the release of the fire breath of God that follows.

1. Blue Ray

Visualize a luminous blue sphere of light surrounding your outer form and your throat chakra glowing in blue light.

I am God's will. I am God's power.

I am the answer for all this hour.

I work and strive. I am glad to be alive

To protect, to defend from those who pretend.

A sword at my side, I move worldwide

To uphold God's children wherever they reside.

My name is Michael, Prince of the Archangels.

I come with my legions and scour all regions

To remove all evil with the power of blue,

To make all right and souls renew.

With Faith, my beloved, who stands at my side,

And armies of blue, together we stride.

I release the blue-fire breath of God to consume on contact all that is anti-God's will. **Huh! (4x)*

2. Yellow Ray

Visualize a luminous yellow sphere of light surrounding your outer form and your crown chakra glowing in yellow light.

My color is yellow and I am known to be wise.
My flame is wisdom and I am here to advise.
I perceive the good and I perceive the bad—
That which will work and that which is sad.

I rise to the level of the God-mind above.
I see all below with the impetus of love.
I send pure thoughts that will expand all minds
And expose the lies that deceive mankind.

My name is Jophiel, archangel of wisdom.
I come with my legions to illumine God's kingdom.
With Christine at my side I will ever abide
In the hearts of men the whole world wide.

I release the yellow-fire breath of God to consume on contact all that is anti-God-wisdom. *Huh! (4x)

3. Pink Ray

Visualize a luminous pink sphere of light surrounding your outer form and your heart chakra glowing in pink light.

I am God's love with my precious Charity.
We see all men with crystal clarity.
We bring comfort and love and a sense of well-being—
A tender caress with our all-overseeing.

We fill all hearts with the fires of love
That descend from the kingdom of God above.
We nurture and protect the children of God
With our loving-kindness and heavenly rod.

I AM Chamuel, archangel of love,
With my beloved Charity and our legions above.
We release rosy-pink light around the Earth
To give Terra a loving, joyous new birth.

I release the pink-fire breath of God to consume on contact all that is anti-God-love. *Huh! (4x)

4. White Ray

Visualize a luminous white sphere of light surrounding your outer form and your base chakra glowing in white light.

Purity, purity, purity sublime
 Is the light of God for every clime.
 I shimmer and glow with God's holy light.
 I am all innocence clothed in white.
 I am ascension's fire to raise all life
 And lift all men above earthly strife,
 To renew and charge with discipline
 And saturate the hearts and minds of men.
 To overcome all odds with fervor and might
 And turn men's thoughts to God's holy light.
 I am Archangel Gabriel, with Hope at my side,
 We move with our legions the whole world wide.

I release the white-fire breath of God to consume on contact all that is anti-God-purity. *Huh! (4x)

5. Green Ray

Visualize a luminous emerald sphere of light surrounding your outer form and your third-eye chakra glowing in green light.

The light of God is a precious gift
 Of healing, truth, abundance to lift
 The hearts of men in emerald light,
 In God's All-Seeing Eye so bright.
 The sick, the lame, the poor, the old—
 All come to the feet of healers so bold
 To be the servants of us above
 And raise all life in God's healing love.
 Raphael is my name, the healing archangel,
 And by my side is Mary, Queen of the Angels.
 Together we move with our legions above
 To bring healing to all with the green light of love.

I release the emerald-fire breath of God to consume on contact all that is anti-God-truth. *Huh! (4x)

6. Purple and Gold Ray

Visualize a luminous sphere of purple light with flecks of gold surrounding your outer form and your solar-plexus chakra glowing in purple light with flecks of gold.

Purple, purple everywhere—
The light of God that we do bear.
Peace and harmony over the land
Is what we see and understand.
All strife and war of every kind
Is soon relieved by purple, we find.
With flecks of gold in the purple light,
We know that this makes all things right.
I am known as Uriel, archangel of peace.
With Aurora, my beloved, we demand that war cease.
Let harmony prevail and peace descend
Throughout the world unto the end.

I release the purple-and-gold-fire breath of God to consume on contact all that is anti-God-peace. *Huh! (4x)

7. Violet Ray

Visualize a luminous sphere of violet light surrounding your outer form and the seat-of-the-soul chakra glowing in violet light.

O freedom flame, O freedom flame,
The light of God we all acclaim.
The violet light of God above
Is heaven's beautiful treasure-trove
Of mercy, forgiveness and alchemy
To bring life's needs more abundantly,
To change, transmute all errors of old
Into a pure manifestation of gold.
This elixir of life beyond compare
Is a great alchemy for all to share—
A renewal of life in every way
To bring in Saint Germain's bright new day.
I am Archangel Zadkiel of the violet light.
At my side is Amethyst, my beloved so bright.
With Saint Germain and Portia, too,
We claim the violet fire for you!

(Continued)

I release the violet-fire breath of God to consume on contact all that is anti-God-freedom. *Huh! (4x)

Hail to the jewel in the heart of the lotus.

Hail to the sun that you are.

Hail to the presence blazing right through you.

Hail to the light from your star.

Hail to that perfect love shining within you

And emanating so far.

On January 1, 2009, at the New Year's Class in Dallas, Texas, Oromasis and Diana, hierarchs of the fire element, gave a teaching on how to release the fire breath of God:

I come this day to impel you higher through fire. And therefore, I release through the breath of the Holy Spirit, through my voice, the radiant light of the fire of God to burn through now and consume all human concepts in the etheric plane which are not fully of the light. Blessed ones, when you would have greater understanding, first you must have fire within your being. And therefore, stand with me now and raise your hands to be the deliverers of this fire on behalf of this New Year and for all mankind.

*As you take your breath now, see within the very molecules of this breath of God welling up from within you and release it in an action of light through the *Huh! (3x), through the *Huh! (3x), through the *Huh! (3x).*

The fire breath was released in a great thrust with the sound of the "huh," and this action was repeated a number of times to dissolve all that was unreal and to burn out death and decay from the etheric body.

In the preceding ritual, we release the fire breath four times after each verse, once for each of the four lower bodies.
