

Jar-El-Um's Prayer

CS-2

Om Mani Padme Hum AUM

In the name I AM THAT I AM, my beloved Holy Christ/Buddha Self and Holy Christ/Buddha Selves of all lightbearers throughout cosmos, beloved Alpha and Omega, Helios and Vesta, Hercules, Jar-El-Um, Sponsors of Youth from the Great Central Sun, Rex and Nada, Bob and Pearl, Rose of Light, Clara Louise, Saint Germain, Mother Mary, Jesus, El Morya, Surya and Cuzco, Lanello, K-17, Kali, the Buddha Mother and all true messengers of God, all ascended and cosmic beings, legions of angels and archangels, Elohim, Buddhas and bodhisattvas of heaven, gnomes, undines, sylphs and salamanders, we see manifesting now:

Jar-El-Um with 144,000 legions of angels from out the Great Silence aiding holy families upon Terra. We see the victory of each family, expressed as homes filled with the presence of the Holy Spirit, mutual respect and honoring of one another, joy and happiness among family members as they work, play and share their mealtimes together.

By the power of the Great Central Sun, light blazes through families everywhere! Illumination's ray blazes into the minds and hearts of all mothers- and fathers-to-be, revealing the sanctity, the beauty of their co-creation aborning. Mothers- and fathers-to-be are assisted by extended families and their entire communities to prepare for their sacred roles as parents. Expectant mothers focus on adoration of God. They take time to contemplate the beauty in nature, music, works of art and literature and share these experiences with their child aborning. They take in nutritious food and get ample rest.

The education of our children begins before birth in the loving, joyful environment created by the prospective parents who commune continually with the soul in the womb. After birth, conscious, loving interaction with parents and extended family accelerates the mental, physical and spiritual growth of the child. Later, in formal educational settings, the learning atmosphere sparkles with creativity and fun. Schools are surrounded by campuses adorned with floral gardens and fruit trees, ponds and grassy fields. Children and youth of varying ages learn together through hands-on projects. They study and play outdoors at least 50% of the day. Teachers facilitate and rarely lecture, guide and seldom tell. The mantra of every teacher is, "My students already contain all knowledge." Loving discipline shapes the character and courage of each boy and girl.

All schools have indoor and outdoor sanctuaries, encouraging students to commune with God and nature any time of the day. Our children know God as their compassionate Father, their nurturing Mother. Our children are secure in the love of God and express their love for the divine freely. They know who they are and treat all life with compassion.

Curricula include true stories of national history. World history is accurately reported. Students are taught the mystical language of mathematics and music. They are taught that true science and true religion are one and the same. The education of the heart and soul as well as the mind of each child is practiced in schools in every country around the world.

Meru Learning Centers sprout up globally, supporting parents and teachers in guiding children to develop their gifts of the Holy Spirit, the siddhis.

We see angels streaming north, south, east and west, all across America and the entire planet. With hands raised, we say, go to, legions of light into every hearth and home, into every school in this hour! We resurrect the flame of freedom; we resurrect the ennoblement of the family through our focus on and adoration of the matrix of the Holy Family!

With the angels we are shielding all youth, supporting all youth, illumining all youth and visualizing their highest dharmas fulfilled!

In the fullness of your cosmic joy, we accept this prayer manifest here and now with full love, wisdom and power anchored in the earth, air, fire, water and ether and tangibly manifest in our lives and in the lives of all evolutions of light throughout cosmos!
