

Meru University Success and Expansion

Om Mani Padme Hum AUM

In the name I AM THAT I AM, my beloved Holy Christ/ Buddha Self and Holy Christ/Buddha Selves of all lightbearers throughout cosmos, beloved Alpha and Omega, Helios and Vesta, mighty Cosmos and the Great Central Sun Magnet, God and Goddess Meru, Elohim Apollo and Lumina, Jophiel and Christine, Lord Lanto, Lord Ling, Confucius, Lao Tse, Sanat Kumara and Lady Master Venus, Gautama Buddha, Lord Maitreya, Jesus, Kuthumi, Omraam, Peter Deunov, Padma Sambhava, the Great Divine Director, Saint Germain and Portia, El Morya, Padre Pio, John the Beloved, Rose of Light, Charity, Surya and Cuzco, Lanello and Clare de Lis, K-17, Kali Ma, Brothers and Sisters of the Golden Robe, all ascended and cosmic beings, legions of angels and archangels, Elohim, Buddhas and bodhisattvas, hierarchies of earth, water, air and fire, we pray:

Expand illumination's flame through us for and on behalf of the entire world body. We humbly offer our Meru University courses, instructors and students as portals to radiate your wisdom-light. Together with us, *emanate* golden-crystal fire streaming through all public and private educational systems—from pre-kindergarten, elementary and secondary grades through undergraduate and graduate levels of higher education. Our crystal-solar light is flowing through universities of the spirit at inner realms in the retreats of the Brotherhood. Penetrate and activate illumination's flame through sacred studies in other dimensional planes of being, from Agartha in the Earth's core through every language and every system of thought universally.

Cosmic intuition and brilliant love-wisdom, merged with Elohim Apollo and Lumina's flame of illumination, gently penetrate into the very cellular structure and beingness of all created life. God-ideals of perfection, beauty, co-creativity and myriad qualities of the Divine One flow by our sustained intention. The minds of humanity bring forth higher sciences and courses of instruction, allowing the common man and woman to attain their full integration of Christic/Buddhic beingness.

Our hearts are bonded as One and we are focused on our vision and mission. Meru University is a true mystery school of the Brotherhood/Sisterhood of Light filled with student initiates and aspiring

adepts. Our expanding courses flow to wider audiences, and a profound shift in the awareness and consciousness worldwide is occurring. And we rejoice!

We lay the framework and fulfill our goals for 2011 for Meru University by producing eight live courses and redesigning our team processes. Student registration is fun and easy. Our technical training for students and staff creates high confidence. Our timely course certificates and surveys produce authentic student comments. Our new positions for qualified researchers fill quickly. Our inspired teachers mindfully infuse light and expand hearts. In 2011 and beyond, we produce upgraded and reformatted courses and set up our online Meru University infrastructure. We see our audience expanding to the hundreds and thousands as people find Meru University through our Facebook fan page and other media outlets. We introduce courses in additional languages beginning with Spanish. And we design introductory and advanced courses for adepts as steppingstones on the Path. We develop our new Meru University Foundation to partner with and nurture our patrons. We see our new physical location for Meru University manifesting with spacious classrooms, offices, libraries, comfortable dorms, cafeteria and a fully equipped production theater and media center.

Our Meru University faculty, instructors and staff are enflamed with the Holy Spirit and work together in joy and harmony. Angels of protection, illumination, administration, communication and promotion enfold and inspire us. Our world class and leading-edge courses offer the distilled essence of ancient wisdom combined with current metaphysical and scientific thought. We design and deliver live, interactive and virtual on demand courses and events. And we publish in both electronic and print formats. Our lightreach expands through many hearts as Meru University presents and sponsors a variety of activities and venues.

We give you our gratitude for this great influx of God's love-wisdom, raising our individual and planetary consciousness and vision into new realms of light and beauty. We joyfully claim our opulence and experience victorious expansion and success. Meru University embodies the golden-pink wisdom flame in action on earth now! And with John the Beloved, we remember, "Love is the key" and love is our victory!

I Claim it! I see it! I believe it! And I accept our vision as already manifest!
