

Prayer Focus for August-September 2010

OM Mani Padme Hum AUM

I give my love and gratitude to the beloved Spirit of the Universal Brotherhood, all sponsoring masters, Elohim, angels and elementals, for your love, protection, wisdom, gifts and graces, and your untiring devotion to the elevation of all life.

I see hallowed communities in sacred spaces with devotees in great numbers who have a collective vision and mission. They join heart, head and hand with the forces of light in the development of the Brotherhood's plan, East and West.

Beloved Buddha of the Ruby Ray, I ratify your investiture of light for the blessing and raising of all life within our earth domain. One with God, I co-create with every emanation, conscious word and fortuitous vibration that flows forth from my being. I am secure in God and I work in perfect action of light to bless, heal, raise and seal our domain in greater consciousness.

I sustain my vision of all souls experiencing complete trust in a loving, faithful connection to our God in all life on Earth. I feel and see God directing positive change all around me, and I say with mighty Victory, I accept only victory in my life today!

I send waves of peace into the Gulf of Mexico. Mankind is awake to a new level of awareness in love and respect for Mother Earth and her marine life that is vital. Ascended master technology is in place. Our sun receives our love and appreciation for gifts of life-energy to sustain creation. Beloved Helios and Vesta, flood us with your golden-pink rays.

I see Kuan Yin's merciful heart protecting the holy innocents in Mexico. Our American borders are protected.

We vow to hold the perfect vision of victory for our projects and team goals. We employ conscious thought, language and action, respecting all heartfriends and their gifts. Musical recordings for seven Elohim are completed, released and playing continually, effectively holding the light of the power of the blue Kingdom and Queendom on behalf of elementals and stabilizing our precious Earth. We caress our elementals every day in joyous violet-laser light, and they are free to do their holy work.

Beloved Saint Germain overshines us as dozens of new students join us for our 1007 Meru University course "Shakespeare on the Path of Adeptship" August 15 to September 19.

We are drawing into our beings daily more light and illumination in preparation and expectancy of beloved Helios, Surya, Hermes and Omraam in our Meru University class 1008 September 26 to October 31, "Solar Health and Solar Wealth." Many new students are drawn in through our website.

We see the way clear, reaching our goal of 99 pilgrims for our Hearts Center Pilgrimage to South America for "The Blessing of the Seventh Age of Freedom: Saint Germain Speaks on Behalf of the Holy Family," October 8 to 12 in Santiago, Chile.

The August 13 to 15 event in Mount Shasta, California, "Saint Germain Speaks on Shambhala: The Lemurian Brotherhood's Teaching for Today," draws many new heartfriends, taking up the torch for self-elevation and world freedom, proclaiming an age of joy.

We see angels and sponsoring masters working through Donna Korth and the HeartShare Team, supplying illumination, healing love and support to each seeker via our conference call, "A New Era of Enlightened Consciousness," on Thursday, September 2.

Always only Victory! (3x)
