

## Prayer Focus for February - March 2010

Om Mani Padme Hum AUM

In God's name I AM, we envision and co-create our new world as one heart and one voice. We are God's love, wisdom and will abiding in the full domain and grace of our Presence, and we agree together:

1. With all people living on Earth, we have good, pure, radiant thoughts and feelings about nature, plants, animals and life itself. We easily overcome ailments of body and soul through our inherent conscious awareness.

2. The power, warmth and nourishment of our sun is recognized, appreciated and active in human affairs. Gold is highly valued as our standard medium of exchange. We grow much of our own food and enjoy co-creating products and sharing our unique gifts in service to humanity. We understand the golden rule as our natural way of being on Earth.

3. A new corona of wisdom's fire graces us, and angels of illumination guide and direct our course. Our Great Karmic Board approves and acts upon Lanto's proposals for the advancement of souls through our Hearts Center movement and for new opportunities for greater spiritual education during Meru University in the year 2010 and beyond. With the chohans, we are bringing a higher frequency into the dynamic of our work to progress the course of evolution upon Earth. Our teaching and studying have a profound effect upon our planet.

4. Our new Hearts Center Forum is effectively increasing our collective awareness as a community. We regularly set aside time to participate in lively conversations and to share our Presence and our soul's rich experience and wisdom. Our inspiring, empowering communications draw kindred souls to our website via the search engines, and we are contributing significantly and naturally to the success of our website and our Hearts Center Community Mission.

5. By the power of Mother Mary's matrix of emerald magnification of light, we are keeping our vision for her Wellspring Retreat spinning and flowing through our third eye, creating and re-creating it as our alchemy unfolds. We know our Wellspring is already secured, for Mary has given us her Word. We trust in her Immaculate Heart and continue to see our beloved messenger and heartfriends occupying their respective workstations in the Golden Ratio complex. Our retreat in Paradise Valley is in full operation, financially sound and

compliant with all codes and regulations. All local heartfriends are well and abundantly cared for.

6. As we embody our truth and grow in Buddhist mindfulness, we offer our causal bodies to our Universal Brotherhood of Light to intercede and bring enlightened solutions in all areas of our lives on Earth. And we specifically see manifesting the:

a) Securing of our borders and inspiring of our representatives with new ideas for reforming our immigration laws and procedures.

b) Preserving of our sovereignty as a nation and our economic thriving.

c) Upgrading of our pending health-care legislation and current concepts and practices in medicine, including pharmaceuticals and vaccines.

d) Orchestrating of our most powerful personal and planetary opportunities for peace returning with the configuration of Mars Maximus until late May.

e) Dissolving of rampant governmental corruption and drug trafficking in Mexico, and the healing of Mexico's children who have been mistreated.

f) Ending of violence, bombing and terrorism in Great Britain, France, Poland, Southeast Asia, India, Pakistan and America.

g) Freeing of the people of Burma, their stalwart monks and their pro-democracy leader Aung San Suu Kyi, ending her house arrest of 14 years.

h) Providing of spiritual guidance and education to our children and youth in our families and in our Hearts Center Community events and services.

i) Accomplishing of 100 percent of our masters' goals for all our Hearts Center projects and upcoming activities, including:

- Spring equinox weekend retreat, "Welcome the Spirit of Spring in the Heartland," March 19-21 in Chicago, Illinois.
- Meru University 1002, "Advanced Studies of the Human Aura," March 21-April 25.
- Meru University's Holy Thursday Seminar, MU 1003, on April 1.
- Our Hearts Center Easter conference, "The Spiritual Fragrance of the New Age: Creating a New Culture of Conscious Awareness," April 1-4 in Bozeman, Montana.

**I Am a being of cosmic violet fire,  
I Am the holy freedom God desires! (3x)**
