

39. Queen of Light's Scandinavian Song

O Queen of Light from heaven's height
We see your radiance shine.

Now blaze through us and raise through us.
Each son and daughter thine, forever more will shine;
Raising all life in Scandinavia!

O Queen of Light from heaven's height
We see your starry fire.

Your rays descend as we ascend.
O raise us ever higher, fulfill our great desires
To free all life in Scandinavia!

O Queen of Light from heaven's height
We see your heart above.

To free each soul is our great goal.
With your eternal love, send forth the Holy Dove
To bless all life in Scandinavia!

Your sponsorship is ours to claim
To win the game we play,
Raising all life in Scandinavia.

We embrace our Mother Svea in the I AM name,
Keeping the flame for Scandinavia!
