

## 122. The Gift of Love

*To the Elohim Heros and Amora*

Lo, the star of heaven's love  
Raising all on earth to realms above—  
Now the holy light of God is come,  
Bringing us his gift of love.

*(Interlude)*

Angels sing with Elohim  
From the fount of love eternally,  
And their song can still the raging sea—  
Gifts of love and harmony.

All souls aspire to be free and loved—  
Dreams and hopes of a new day.  
Now angels come to raise us up,  
Op'ning the gates to heaven's light.

All forgiven, comes the dawn  
Of a hopeful heart and joyful song.  
With a prayer of peace, God's Holy Dove  
Brings to us his gift of love—

*(Interlude)*

Bringing all his gift of love.
