Archangel Michael

Rebecca Brainard

9:10 pm MST

The earthquakes in California are about on the verge to start. We need prayer vigils to avert them. We are very concerned about this issue because of the San Andreas fault, and because of our lightbearers in the Santa Rosa vicinity. Please pass the message on. We are attempting to avert a catastrophe.

And we thank you.

El Morya

David Lewis

9:12 pm MST

You should have at least a three hour time period on Saturday focused on the San Andreas fault as has been previously worked on. What good is it to pray for the youth if there is no platform for their evolution? Therefore, this is why Archangel Michael has come in this hour. However, the need is beyond this weekend. He comes with enough time that you can make the immediate calls but also establish a rolling momentum for the next two months. Recall what was said during the time of the mission's tour and also the Santa Rosa event where time was bought for a certain time period. Does anyone here recall that? (*yes*)

What was it? (*seven months*)

Seven months. When would that seven months be up, I ask? (*March*)

Therefore you see the timing is exact. And in order to avert additional earthquakes, more work needs to be done. For all of March the focus is on the prevention, the stabilization of the earth in all quarters. This is also why Surya and Cuzco came this morning, for a certain action of stabilization; and why David was awakened early to go to Wellspring to lead the session, a most powerful session this morning. We encourage as many as possible in and around all Hearts Centers to pool their energies and to get as Surya has stated, the cascading prayer vigils going in full, with full abundant voices. Not with only one or two voices per Hearts Center as has occurred at times with a very weak momentum. But with all those lightbearers who have the knowledge of the sacred fire to blend their voices for this purpose.

We suggest the three hours be during a time when the most people are available over the internet. Most likely from 6-9 pm Montana time on Saturday.

Thank you.

9:23 pm MST

They place electrodes within the earth and Angels of Sacred Fire create across the San Andreas fault from top to bottom and bottom to top now, a buffer and a softening effect to absorb shockwaves and certain energies of mankind's darkness that has descended into the earth as a result of all perversions and the karma. Lanello and Mother offer their causal bodies for this

purpose. And you each may each may also offer yourselves as a living sacrifice if you so choose to assist them in this process beloved hearts.

I thank you.
