

Beloved Heartfriends,

Come to The Hearts Center's New Year's Conference in Chicago!

"Light is the Alchemical Key" is the place to be from December 29th through January 1st at the [Four Points Sheraton Hotel](#), 10249 W. Irving Park Road in Schiller Park, two miles south of O'Hare Airport.

Together we will invoke God's will to clean up the records of 2007 and inaugurate 2008 with a spiritual charge of light! During this weekend event Saint Germain, Maitreya, El Morya as well as eight other masters and cosmic beings will share their love and teaching with us. In addition, Gautama Buddha will come with the thoughtform for 2008 precisely at midnight on December 31st!

Interwoven among the masters' messages and sessions of prayer and song are teachings on the science of sound and the violet laser light. In addition, you will enjoy an *electrifying* presentation on the "Esoteric and Scientific Perspectives of the Meaning of Lightning." And Dr. Hema Pokharna, a certified teacher in nonviolent communication and researcher for the University of Chicago will present "Communicating from the Heart", the understanding and practice of nonviolent communication.
