

Dear Heart Friend,

“I feel I’ve come home!” is often the comment we hear from new friends to our Hearts Center community. Whether you are discovering us virtually, locally, regionally or internationally, we welcome you with open hearts!

What do we have to offer you?

- Our loving acceptance
- Opportunities for healing, transforming and succeeding
- Practical spiritual teachings and tools for your personal path
- Up-to-the-minute revelations and teachings, blessings and clearances from the ascended masters and cosmic beings

We are grateful you have connected with us! And we honor your gifts, inviting you to join our dynamic movement of heartfriends worldwide in bringing in a new age of peace, freedom and enlightenment.

What do we do? We meditate, pray, sing, chant, dance, and sungaze to realize personal enlightenment. And we study and share the teaching of the ascended masters. We are all about loving, healing and thriving. My mission is to deliver the masters’ directly inspired, current teachings to carry on the work of the Universal Great White Brotherhood (and Sisterhood) of Light.

Again, Welcome! I look forward to meeting and greeting you at one of our many interactive online classes or live events as we share our path of oneness and light.
