WELCOME

Aloha!

On behalf of myself and the other WhaleSpirit Sanctuary Malamas (*protectors and nurturers of the land*), we are excited that you will be staying with us.

Our WhaleSpirit Sanctuary holds much *mana* and is truly a sacred place, so **PLEASE READ THROUGH THIS WELCOME GUIDE!** We have prepared this guide to help answer all the important questions you may have to make sure your stay at WhaleSpirit Sanctuary is comfortable.

WHAT TO EXPECT:

Our on property Ka Luna (*head supervisor*) will meet with your group's facilitator/organizer first. They will give them a tour of the property including the rooms, suites and Temples they have reserved. Then your group's facilitator/organizer will show you to your rooms.

The most common feedback we get from guests staying at the Sanctuary is that as soon as they arrive, our '*immersed in Mother Nature*' environment, allows them to breathe easier and relax quickly.

Some, who were new to the experience of staying in a more natural Hawaiian environment, admitted that *how life is truly lived in Hawaii* and saying "*Aloha*" to all of Mother Nature, took a day or two of getting used to. However, once they learned how to share a small piece of sweet papaya or mango with a local gecko who stopped by hoping for a sample... this quickly became one of the highlights of their trip and staying at the Sanctuary.

QUESTIONS:

If you have any questions please direct them to your group's facilitator/organizer first.

All of us at WhaleSpirit Sanctuary wish you a wonderful journey and stay.

Me ka mahalo nui,

Jeffrey Goodman
Evolutionary Specialist and *Malama* of WhaleSpirit Sanctuary

Malama is a term used to indicate a relationship of deep respect and care for the land, ocean and all that surrounds us. The Hawaiian dictionary lists many possible meanings: to take care of, respectfully tend to, nurture and care for, preserve, protect, to be in service to, honor as living and holy, a loyal land custodian.

Mana is a term used to describe a spiritual force or energy.

WHALESPIRIT SANCTUARY

ABOUT OUR SANCTUARY

People come to WhaleSpirit Sanctuary for many reasons. Some come and use this as a safe home-base as they go off and explore the island(s). Some come for a romantic get-away. Others come seeking peace and quiet to heal as they desire to rejuvenate and reconnect with themselves and the land. WhaleSpirit Sanctuary is also an ideal place to hold transformational retreats and workshops.

Whatever the reason you have chosen WhaleSpirit Sanctuary, you are promised that your stay here will be beautiful, safe and sacred.

PRIVACY AND SACRED SPACE

Our very private 5-acres, is a sacred, all natural, eco-friendly (*chemical/toxin free*) property overlooking the powerful vortex of Kealakekua Bay. We are 'protected' by the sacred pali (*hillside*) where ancient Hawaiian Kings and Queens are buried.

We ask that all guests help us maintain the serenity and sacredness of our sanctuary atmosphere by respecting that many of guests and neighbors here are seeking an undisturbed, tranquil and peaceful experience.

THE GARDENS AND ORCHARDS

We have an extensive variety of flowers, fruits and plants living along side you on our property. During the wet seasons we could easily be compared to a mini botanical garden! *Please remember to bring your camera.*

Before picking fruit please ask. Much of what is growing on our property may be ripening and reserved for our Chef and an upcoming private dinner or event. However, there is often an abundance and we are more than happy to share.

ABOUT OUR ON-PROPERTY 'OHANA (FAMILY)

Our Sanctuary is designed to be a quiet, relaxing, self-sufficient experience. Please understand we do not have full service staff like a Hotel or B&B so your time at our Sanctuary will not be disturbed. You may receive a warm "Aloha." from our Ka Luna or a Malama (*caretaker*) quietly nurturing the property.

Any questions during your stay should be first directed to your group's Facilitator/ Organizer.

WHALESPIRIT SANCTUARY

Mahalo for your respecting and understanding these policies.

WHALESPIRIT SANCTUARY

BUGS AND GECKOS - IT'S PART OF BEING ECO-FRIENDLY!

*"It is good luck to find a gecko in your room.
If there is no gecko, ask for a different room."*

We maintain a natural environment, practically untouched by toxins and chemicals. Sustaining a "spray free" environment honors the health of those who stay here and allows us to properly love, care and steward the land. We do our very best to keep the WhaleSpirit Sanctuary as clean as possible. However, co-existing with the kūlokos (*locals*) such as geckos and other friends is part of the experience of living on a chemical free, "spray free" sanctuary.

STEVE THE GECKO

THE 'HAWAIIAN NATURAL' LOOK.

This is part of the experience of being on a chemical free, eco-friendly property. Even though we do everything to keep things clean and well sanitized, geckos and other friends may be present.

It is very possible that between the time your room was cleaned and your arrival, nature chose to give your space a bit of a relaxed 'Hawaiian Natural' look vs a sterile hotel. We do promise everything was cleaned! On behalf of nature, we do apologize ahead of time if you find something that is not acceptable. Please kindly let your group's facilitator/organizer know so it can be addressed immediately.

ABOUT OUR PROPERTY KA LUNA

Ka Luna means *Head Supervisor* in Hawaiian.

You may receive a warm "Aloha!" from our on-property Ka Luna or see one of our Malama (*property caretaker*) nurturing the land. They are here to oversee the behind the scenes property care, housekeeping and safety of the WhaleSpirit Sanctuary.

The Ka Luna is here to work directly with your group's facilitator/organizer to make sure that their event is operating smoothly. **Any specific needs you have, please address any of them with your group's facilitator/organizer first,** and when necessary they will in turn communicate with the Ka Luna.

Our Sanctuary is designed to be a quiet, relaxing, self-sufficient experience for the group's facilitator/organizer. Please understand that our Ka Luna is not on call 24/7 nor is it their responsibility to offer concierge type services for guest.

NOTE: Our Ka Luna lives on the property and as much as they truly model the open-hearted Ahola Spirit we ask that you please respect their time and privacy - MAHALO

AIRPORT

Kona International Airport (KOA) is the major airport on the Big Island. *35-40 minutes away from WhaleSpirit.*

The other airport is on the east coast - **Hilo Airport (ITO)**. 2 hours away.

TRANSPORTATION

We do not offer transportation due to liability issues. On our website we have a list of many local rental car and rental van companies.

As of March 2017 Uber's service has now extended to Kona and other parts of the Big Island.

RENTAL CARS

Most big car rental companies are represented at the airport, as well as some local ventures.

Most rental agencies do not allow you to take your car onto the really rough roads of Hawaii. If you need a 4WD car, Harpers Car Rentals allows their car to be taken to places like the summit of Mauna Kea and Green Sand Beach.

CELL PHONES AND DRIVING

NOTE: Hawaii has one of the toughest distracted driving laws. \$193 fine!

FOOD/SHOPPING

There is a local grocery store about 5 minutes from the sanctuary, at the top of Nāpo'opo'o Road.

In Kona (*about 25 minutes away*) there are larger grocery stores including Target, Walmart, Ross and Costco for bulk purchases.

FARMERS MARKETS

Depending on the season, there will be various road side fruit and vegetable stands along Nāpo'opo'o Road. We would also suggest checking out our local Farmers Markets for the best local-fresh food and local crafts:

For locations, dates and times:

www.lovebigisland.com/farmers-markets

AFTERNOON VOG

(aka VOLCANO-FOG)

Afternoon vog is a normal phenomenon on the Big Island. Vog is a cloudy/fog like appearance when particles emitted by an erupting volcano react with oxygen and moisture. The upside is it often produces a soft-light and a desire for an afternoon nap ending with colorful sunsets. Since the quieting of the volcano Aug 2018 the air quality has been better than it has been in over 30+ years

OCEAN TEMP

The average water temperature near our Sanctuary is a warm 26°C/78°F, with very little changes during the year - 1 or 2 degrees.

DRINKING WATER

PLEASE HELP US REDUCE WASTE AND BUY A WATER BOTTLE YOU CAN REFILL. Our guests can enjoy a fresh glass of water or refill their water bottles with peace of mind. All Temples and the Main Lanai have water faucets with 10 stage filters.

"Hawaii tap water is some of the best quality drinking water." - Board of Water Supply. It is rainwater that is naturally filtered through underground porous volcanic rock for over 25 years before it reaches aquifers and then sent to homes.

LEARN MORE...

POWERFUL VORTEX

Our sanctuary overlooks Kealakekua Bay. Ancient Hawaiians came to this spot as a place for rest and revitalization. This bay is one of the planet's 10 major vortices. According to mystics and sacred geometry, this location has a pre-disposition for inter-dimensional experiences as it creates a 'portal' or 'star gate.'

19.5° LATITUDE POINT

Kealakekua Bay and our sanctuary sit exactly on the 19.5° latitude point. The 19.5° latitude point is believed to be the intersection between the light body of the planet and its physical surface.

This intersection creates the ability to connect to other dimensions and offer the opportunity for energetic inter-dimensional experiences. Maybe this is why the Hawaiians refer to this sacred place as God's Pathway.

 We are here.

UNIQUE AND MYSTICAL

Mauna Loa is the largest subaerial volcano in both mass and volume, and is considered the largest volcano and tallest mountain on Earth.

There is a very unique and mystical anomaly that exists at our sanctuary as we sit directly on the pathway/grid line between the powerful vortex of Kealakekua Bay and the tip of active volcanic force of Mauna Loa.

If that is not enough, we also are embraced/protected by the Pali Kapu O Keōua. The name means "*forbidden cliffs of Keōua*" in honor of the Hawaiian royalty buried there.

This particular Pali has a curved shape which forms an energetic resonance echo chamber. Many have shared how chanting/singing in the bay can be an omnipotent type experience.

NOTE: When whales come into the bay, their songs can often be heard at our sanctuary.

Many mystics believe that this resonance chamber is the perfect environment to offer up intentions that the heart chooses to make manifest. (*hint: powerful exercise for your retreat*)

There is more... the unique geometrical structure between the lava shaft filled with magnetic iron energy from Mauna Loa and the natural electrolytes produced from the ocean can be believed to form a geomagnetic magnifier for the subconscious. Some believe this supports in deep clearing of both physical and mental blocks and diseases.

It is for this reason we say that:

WhaleSpirit Sanctuary is truly a sacred place in Hawaii where love, wisdom and transformation are manifested simply by being here.

LEARN MORE...

MADAME PELE

According to Hawaiian mythology, Pele the Fire Goddess lives in the volcano on the Big Island and is an extremely powerful and at times a vengeful being. Out of respect she is often referred to as Madame Pele or Tutu Pele.

She is both the creator and destroyer of the Hawaiian Islands. According to legend, Pele lives in one of the most active volcano, the summit of Kilauea, in Halema'uma'u crater.

After settling in at WhaleSpirit Sanctuary be sure to take the time to pay homage to the Goddess Pele, with a "Ho'okupu" *gift from the Heart* (i.e. offerings of food, flowers, a song or prayer).

Custom suggests that if you see Madame Pele walking down the highway, or if she comes to your house or car, offer her a ride, or offer her something to eat or drink. She may appear as an older or younger woman dressed in all white (or she could be in the form of a white dog) as Madame Pele may appear to you in either human or canine form.

Treating Madame Pele like loving family is one way of offering her a gift from your Heart.

NOTE: I can tell you with 100% certainty that this is NOT just a myth. When we see each other, remind me and I will share my story.

- Jeffrey

HO'OKUPU

Ho'okupu is offered whenever you want to express a deep heartfelt thanks. The Ho'okupu can be anything from kind words, a song, food, a meaningful object, flowers or even money. Ho'okupu conveys appreciation with a desire to strengthen the relationship between the giver and the receiver.

Ho'okupu forms a flow of a reciprocal relationship as both sides give and receive. In this way, the relationship maintains a balanced harmony so it can continue to flourish.

It is common custom that when you visit Madame Pele at Halema'uma'u crater, you give Ho'okupu: offerings of food, flowers, and/or gin. Pele is known for her love of Gin. It is tradition to wrap the Ho'okupu in a pū'olo or ti-leaf bundle.

Many people have shared that Madame Pele will always be grateful for your gifts as long as they come from the heart. If you give her a ride she may just suddenly disappear from your car as she blesses to have a great experience on the island and a safe journey until your next return.

LEARN MORE...

THE NIGHTMARCHERS

The Nightmarchers are the spirits of ancient Hawaiian warriors and they're said to roam the islands on certain nights visiting old battlefields and sacred sites. Our guests have shared that they have, at times, heard chanting, the blow of a conch shell, beating of drums or seen lit torches move along the Pali. Some even felt 'something' marching through the sanctuary, down towards the bay.

Custom advises, if possible, to immediately return indoors and/or lie quietly on your stomach, offer a prayer and do not make eye contact until you feel they have fully passed.

TAKE PHOTOS LEAVE LAVA

A well-known '*myth*' in Hawaii is Pele's Curse for taking lava. It is believed that any visitor who takes rock or sand away from the Hawaii islands will suffer bad luck until the native Hawaiian elements are returned.

NOTE: Some believe that this '*warning*' was started by a disgruntled park ranger who was upset and claimed *"If every visitor took a rock home with them within 15 years this part of the island would be left void and barren for future visitors to enjoy."*

For anyone who has spent even a little time in the sacred energy of Hawaii, they will tell you that there is definitely something powerful and magical that exists on these islands and ***it definitely should not be ignored.***

Each year, park rangers are flooded with thousands of packages from past visitors returning even little bits of lava expressing it is clear this is not just a '*myth*'.

LEI OFFERINGS

There is an ancient custom of offering and wearing of a lei. Wearing a lei represented wealth, royalty, and communicated rank.

A big taboo is refusing a lei offering. If sensitive or allergic to the flower, accept and then discreetly and apologetically slip-off the lei. It is acceptable and considered a kind gesture to offer the lei to a loved one. It is impolite to give a closed (tied) lei to a pregnant woman. It is believed that closed lei around the neck is bad luck for the unborn child.

WARNING: Visitors are advised not to 'offer' a lei to the ocean!

Strings from the lei have proved to be deadly to wildlife
(i.e. found wrapped around the necks of strangled sea turtles).

ABOUT JEFFREY GOODMAN

ARTIST • HEALER • INTERNATIONAL SPEAKER • INTUITIVE ADVISOR • TRANSFORMATIONAL SPECIALIST
AND MALAMA OF WHALESPIRIT SANCTUARY

During a Hawaii vacation in February 2003, the sacred energy of WhaleSpirit Sanctuary and I were first introduced. At that time, I was a nationally known fashion/advertising photographer, holding a long list of accomplishments and achievements.

I was unaware how that 'meeting' would transform my life and how the future would then be designed so specifically to allow us (WhaleSpirit and me) to later reunite and become so intimately involved.

After that vacation and return to Arizona, my world did a complete 360. Almost over night (in less than 3 months) my 20 year career as a professional photographer stopped and I found myself with a very busy private practice as an energy healer and later as an instructor. www.EvolveCare.com

Not long into this new journey, hundreds of well seasoned professionals from all types of industries began seeking me out for business advice and guidance to help them better understand how to achieve professional and personal successes in their businesses.

Very quickly I noticed that there was a huge gap in business education that aligned with the ethics, principles and preferred practices of people who truly love what they do. There was a need for business education specifically intended for artists and healers. Excited for the opportunity to share all the success strategies that use in my own businesses, I developed a business course called CareerHearted: *An evolutionary way of understanding how to grow a business from the heart.* www.CareerHearted.com

CareerHearted models how a business is literally a living being/energy and with a little intuitive training (taught right in the course) anyone can learn how to talk to it (their business). To make it more exciting and even easier to learn, CareerHearted restructures a business into the 7 chakras.

In less than three years from its birth, I was honored with invitations to speak and teach all over the world. The CareerHearted course is now online so anyone, at any time, can have direct and personal experience with me and the course. This course has helped thousands spanning over 11 countries.

Life then got even more fun... business owners, high profile international entrepreneurs and professional athletes began to seek me out for private consulting, one-on-one trainings and the chance to leverage my professional intuitive skills for their own careers and businesses. ***TheFuture.Business***

Then, after 8 years of exploring other worlds than Hawaii, I returned. February 2017, WhaleSpirit and I were reunited.

Within seconds it was crystal clear that my heart was about to expand more and my very busy world was to find space so she (WhaleSpirit) and I could begin a next chapter... together... of even greater transformation for both of us.

And this is where the 'about me' starts getting really exciting...

It is an honor to share the love that WhaleSpirit and I have for each other... with you.

Aloha.

SACRED BLESSING

At sunset, on January 27, 2019, Kumu Keala Ching honored us by conducting an ancient ceremony to offer a blessing for the land and the emergence of WhaleSpirit Sanctuary.

The blessings from Kumu Keala Ching was to further deepen our desire to continue to show respect for the sacred land we are resting on. The intention was to offer all who stay with at WhaleSpirit Sanctuary the opportunity to immerse themselves in the mana of Aloha and experience a truly positive and harmonious environment in Hawaii.

A ceremony to remember. It was incredibly powerful with drumming, chanting, the sacred hula dance and a traditional Hawaiian meal afterward.

Kumu Keala Ching walked all 5+ acres and blessed each individual cottage and each room of the Main Hale. He offered blessings for the land and the WhaleSpirit Sanctuary. At the end of his final blessing, the sky gifted us with a breathtaking sunset that lasted long after sun had actually set and we were all witness to the rare green flash phenomena.

Now, when you arrive at WhaleSpirit Sanctuary with pono (good energy and good intention) you will be embraced with warmth and a sense of peace and comfort. If you take time to sit quietly on the lanai, you be linked to the mana of WhaleSpirit.

If you allow an opening within, you will witness the emergence of harmony of one heart and one spirit, with happiness, unconditional aloha, kindness, compassion and respect. This experience is a gift to you from WhaleSpirit. Please take it with you and manifest it in your life and share it with others.
